

Digital Pressure Gauges

LEO2

The compact LEO2 digital manometers are budget-friendly and provide high accuracy. The minimum or maximum value since the last reset can be displayed at the same time as the current pressure value in a wide variety of units of pressure. The swivel adapter allows the device to be optimally positioned. Power is supplied by a conventional CR2430 coin cell battery (provided).

Pressure Ranges: 0...4 to 0...700 bar

Accuracy: $\pm 0,1$ %FS

Total Error Band: $\pm 0,2$ %FS @ 0...50 °C

Interfaces: None

Special Characteristics: Compact and precise

Display: 4-digit LCD display.
