

One Touch Fittings

One Touch Fittings Self Sealing

Features :

- * Attractive design
- * Compact size
- * Threaded nipples of L, T & Y fittings enable plastic portion to turn by 360°
- * Full area of the inner bore of the tubing is available for flow of fluid
- * Bubble tight sealing of tubes
- * Suitable for both Nylon and PU tubing
- * Easy and quick push-in connection of tube / easy removal of tube by simple pressing of collet cap
- * “New design” – Stainless steel collet
- * Teflon pre-coated male taper threads
- * Maintenance free and long life
- * The fitment and function of tubes are not affected by vibrations due to positive gripping of the tube by the collet.
