

Solenoid Operated DC Valve

3/2 Direct Acting Normally Closed

3/2 Direct acting NC valve – 22mm

SOLENOID VALVE E4 Series – 3 / 2 Direct acting normally closed valve (22 mm)

Features:

- * Modular type valve
- * Wide range of coil voltages
- * Continuous duty cycle
- * Low temperature of operation
- * Noiseless performance
- * Manual operator – Push type
- * Gang mounting type

3/2 J Series Valve

Features:

- * Wide range of coil voltages.
- * Continuous duty cycle.
- * Low temperature of operation
- * Noiseless performance
- * Coil can be rotated by 360°

DS2 12 Valve

COMPACT VALVE

Features:

- * Suitable for manifold mounting
- * Mounting provision for individual unit
- * Compact size
- * Manual override
- * Wide range of manifolds available
- * Wide range of coil voltages

Solenoid Connectors

SOLENOID CONNECTORS – KA, KB, KC

Features:

- * Confirms to DIN 43650 standards
- * Central screw ensures vibration proof interlocking
- * Suitable for solenoid valves
- * Models available with transparent housing and indicator lamps
- * Connector with circuit to protect the source and load is available.
