

Single Vane Pump

VT6B

Model VT6B hydraulic single pumps from Veljan hydraulics come with the following specifications: max pressure – 4000 psi, 270 bar; maximum displacement – 0.66 – 6.10 in³/rev, 11-100 cm³/rev; and max speed – 2650 rpm.

VT6C

Model VT6C hydraulic single pumps from Veljan hydraulics come with the following specifications: max pressure – 4000 psi, 270 bar; maximum displacement – 0.66 – 6.10 in³/rev, 11-100 cm³/rev; and max speed – 2650 rpm.

VT6CM

Model VT6CM hydraulic single pumps from Veljan hydraulics come with the following specifications: max pressure – 4000 psi, 270 bar; maximum displacement – 0.66 – 6.10 in³/rev, 11-100 cm³/rev; and max speed – 2650 rpm.

VT6CP

Model VT6CP hydraulic single pumps from Veljan hydraulics come with the following specifications: max pressure – 4000 psi, 270 bar; maximum displacement – 0.66 – 6.10 in³/rev, 11-100 cm³/rev; and max speed – 2650 rpm.

VT6CSH

Model VT6CSH hydraulic single pumps from Veljan hydraulics come with the following specifications: max pressure – 4000 psi, 270 bar; maximum displacement – 0.66 – 6.10 in³/rev, 11-100 cm³/rev; and max speed – 2650 rpm.

VT6D

Model VT6D hydraulic single pumps from Veljan hydraulics come with the following specifications: max pressure – 4000 psi, 270 bar; maximum displacement – 0.66 – 6.10 in³/rev, 11-100 cm³/rev; and max speed – 2650 rpm.
